Founded in 2005, the International Poverty Reduction Center in China (IPRCC) is not only an institution directly subordinated to the State Council Leading Group Office of Poverty Alleviation and Development (LGOP), but an international institution for poverty reduction research, cooperation and exchange. It practices the system of director-general responsibility under the leadership of Board of Trustees (BOT). The Council units include the LGOP, Ministry of Commerce, Ministry of Foreign Affairs, National Development and Reform Commission, Ministry of Finance, UNDP, World Bank, Asian Development Bank, UK DFID and Chinese Association for International Understanding. Over the past five years, under the care of the CPC and relevant leaders of the country, under the direct leadership of the LGOP, and with the support of the Council units, relying on China’s successful experience in poverty reduction and development, the IPRCC has brought into full play the role of a platform for international exchanges in the field of poverty reduction and a channel for South-South Cooperation, and strived to contribute to poverty eradication in the world. After 5 years’ hard work, the Center has basically completed the construction of infrastructure and business systems. With the tenet of "contributing to poverty eradication in the world", aiming at "establishing an international poverty reduction training brand, innovating the exchange mechanism for international poverty reduction, building a research platform for international poverty reduction, and exploring international cooperation model for poverty reduction", focusing on "conducting poverty reduction research, sharing development experience, promoting international exchanges and South-South cooperation", IPRCC has completed a series of work orderly and efficiently. It had a positive impact at home and abroad and was affirmed and praised by government departments, international organizations, development agencies, research institutes, civil society, etc:

-- Remarkable results have been made in institution and team construction. IPRCC has initially formed a capable high-quality poverty reduction and development team which is willing to endure hardship.

--Considerable progress has been made in business development. IPRCC carried out the work orderly in five areas: research, training, communication, cooperation and information service.

-- It has won wide attention and recognition from the international community.

Looking back, IPRCC has laid a solid foundation, opened the situation, expanded the field and achieved relevant results; Looking ahead, IPRCC will, according to China's diplomatic strategy and foreign aid policy, keep forging ahead and innovating actively, and comprehensively promote the development of various undertakings of the Center in an effort to make greater contributions to poverty eradication across the world!
A Message from the Chairman:

A Message from the Chairman:

The year 2010 has just passed by. Under the leadership of the LGOP and BoT, with the care and support from the Council units and all circles of society, IPRCC has made gratifying achievements. IPRCC has done solid work in innovating theoretical research, training on brand building, broadening channels of communications, strengthening cooperation in poverty alleviation, expanding information exchange and fostering top-class team, etc. IPRCC has done solid work in innovating theoretical research, training on brand building, broadening channels of communications, strengthening cooperation in poverty alleviation, expanding information exchange and fostering top-class team, etc, which further demonstrated the Center's style, features and vitality.

The "12th Five-Year Plan" further clarifies future direction and goals of IPRCC's poverty alleviation. In the new year, we'll further broaden the research vision and grasp the new trends, review new experience and discuss new problems; highlight focus, improve quality and bring into full play the role of IPRCC's think tank in an effort to make new contribution to poverty elimination and construction of a harmonious society of justice! I believe, under the leadership of the LGOP and BoT of IPRCC, led by Director-General Xu Hui, IPRCC will surely make persistent efforts to achieve greater results.

A Testimonial from the Director-General

In 2010, according to China's diplomatic strategy, IPRCC strived to well understand the international situation for poverty reduction and development and made considerable progress in its work. It has conducted 17 topical studies, compiled and published 13 research works, and printed 3 major core journals; it has successfully organized 8 international seminars on poverty reduction; and four large high-level international conferences including 10.17 Poverty Reduction and Development Forum, etc; it has promoted the cooperation between Africa and Latin America in the field of poverty reduction; compiled the "Yearbook of China's Poverty Alleviation and Development (2010) " and successfully completed all the tasks for this year.

We made the above-mentioned achievements mainly depending on the care and strong support from the BoT and the council units of IPRCC, the assistance of relevant departments and units as well as related international organizations and institutions, the correct leadership of LGOP and the hard work of all IPRCC staff as well. At this moment, I'd like to express to you my sincere respect and heartfelt thanks!

Based on the development direction and target location for the next stage, the Centre organized a wide range of in-depth discussion and research and formed a consensus, and finally determined the overall development objectiver for the 12th Five-year Plan Period. That is: According to the spirit of the Fifth Plenary Session of the 17th Central Committee of the CPC, the requirements of accelerating the transformation of the mode of development, and the needs of international poverty reduction and domestic poverty alleviation and development, based on the country's diplomatic strategy and foreign aid policy, as well as the target of realizing "Outline for Poverty Alleviation and Development of China's Rural Areas (2001-2010) ", through 5 years hard work, we'll strive to initially make IPRCC a think tank for international poverty reduction and development, and for development of foreign aid policy, an influential training base for poverty reduction and development at home and abroad, a poverty reduction and social development forum, a platform for information exchange in the field of poverty reduction and development, and an implementation agency for foreign aid cooperative projects as well.

Looking ahead, we know there is still a long way to go. IPRCC will make every effort to carefully organize the research, training, communication and cooperation for sharing international experience in poverty reduction and help developing countries improve their poverty reduction capacity and effectiveness so as to contribute to achieving the Millennium Development Goals and building a harmonious world.

Outlook on the 12th Five-Year Plan

After 5 years’ hard work, IPRCC has basically completed the construction of infrastructure and business system. With the tenet of "contributing to poverty eradication across the world", aiming at "establishing an international poverty reduction training brand, innovating the exchange mechanism for international poverty reduction, building a research platform for international poverty reduction, and exploring international cooperation model for poverty reduction", focusing on "conducting poverty reduction research, sharing development experience, promoting international exchanges and South–South cooperation", IPRCC has completed a series of work orderly and efficiently. It had a positive impact at home and abroad and was affirmed and praised by government departments, international organizations, development agencies, research institutes, civil society, etc. At present, it has entered the critical period of "concentrating on highlighting focus to make quality products".

The overall development objective of IPRCC for the 12th Five–year Plan Period is: According to the spirit of the Fifth Plenary Session of the 17th Central Committee of the CPC, the requirements of accelerating the transformation of the mode of development, and the needs of international poverty reduction and domestic poverty alleviation and development, based on the country’s diplomatic strategy and foreign aid policy, as well as the target of realizing "Outline for Poverty Alleviation and Development of China's Rural Areas (2001–2010)", through 5 years' hard work, we’ll strive to initially make IPRCC a think tank for international poverty reduction and development, and for development of foreign aid policy, an influential training base for poverty reduction and development at home and abroad, a poverty reduction and social development forum, a platform for information exchange in the field of poverty reduction and development, and an implementation agency for foreign aid cooperative projects as well.

We should give full play to the influence and persuasion of the poverty reduction achievements and experience with Chinese characteristics and make full use of the advantages of many consensuses in international dialogues in the field of poverty reduction to make IPRCC a window to present China's experience in poverty reduction, a platform for international exchange and cooperation in the field of poverty reduction, and a service carrier of China's strategy of "Outgoing" to make greater contributions to poverty eradication across the world!
